Description

The author of “What is Man”, J.B Jackson, has succinctly addressed the question posed in Hebrews 2:6. He highlights the fact that man has a spirit, soul, and body. Animals, he points out, do not have a spirit. He describes some of the activities of the soul in man. He completes this short booklet with a focus on the Second Man. We trust this little booklet will be used by the Lord to magnify His name and edify His people.
