Description

The title, "Tales of Great Truths", perhaps does not quite do justice to the contents of this quaint little volume. A handbook collection of everyday situations which will help the preacher, Sunday School teacher or any interested Bible student, to communicate the truths of the Scriptures.

Illustrations were effectively used by the greatest preachers of the past and of today. The Lord Jesus Himself, used parables and illustrations have been gathered from a wide source and will save time for those who desire to have a collection of pithy stories at their fingertips.
