Description

Is it some denomination or a corporation that you join?

Do you and I decide how to build it up and make it grow? R.K. Campbell's classic book on the Church of the Living God has been reissued in a series of handy booklets. This first volume will introduce you to the Church of the Living God. You will learn what it means to be a part of Christ's Body and to distinguish this truth from the truth of the House of God.

You will be challenged to examine your own thoughts about the Church and your part in it. And you will be encouraged to distinguish between things that are similar yet different.

This important booklet is where your study of the Church should begin.

We know that you will be blessed as you read, study and learn!
