Description

Many think of one future judgment where it will be determined where we spend eternity. False! There are many future judgments given in the Bible. Thankfully we who have trusted Christ as Savior will never be judged, but our works will. The unsaved will be judged at the Great White Throne. There are a number of other future judgments that Leslie Grant takes up in order.

There also are a number of prominent persons in the Bible who are involved in God's prophetic future. Some of these are the Antichrist or False Prophet, the Beast of the Revived Roman Empire, Gog, the Kings of the North and South, and Satan. Donald Johnson takes these up in approximate order: many of them are acting at the same time. Of course, the most prominent Person is the Lord Jesus Christ!

Leslie Grant preached the Word full time for about 70 years and lived in the Seattle, Washington, area. He was a well-known author to those who read the books published by Believers Bookshelf. He went to be with the Lord at age 94 as this book was in preparation. Don Johnson also preached the Word for many years and did considerable writing, including many gospel tracts. He went to be with the Lord in 1997. Leslie and Don were close friends. Enjoy this action-packed book!
